INTRODUCTION

COUGAR 700K EVO is a premium mechanical gaming keyboard aimed at serious and professional gamers.

Inspired by military "stealth technology", the design is created from elements of geometric facet; Mechanical key modules are mounted on exposed and bended aluminum structure with premium brushed surface treatments, this structure provides the user with more efficient typing, not to mention a sturdy and strong structural foundation. The ends are then wrapped in a plastic frame to create a protected feel. Intuitive key and button groupings are neatly integrated into the plastic frame. Thereby drawing and driving attention towards key areas and allowing the gamers to concentrate and focus on their competitive matches.
